- **5.5 million** children, **4.5 million** of whom are U.S. citizens, have at least one undocumented parent
- DHS data reveals that **72,410 parents of U.S. citizen children** were deported in 2013
- A 2013 report by Human Impact Partners estimates that over 150,000 U.S. citizen children were affected by a parent's deportation in 2012
- A 2011 report by the Applied Research Center (ARC) estimates that 5,100 children reside in the child welfare system with a detained or deported parent
- 1 million undocumented children living in the U.S. with limited access to benefits and higher education
- Over 60,000 unaccompanied children have entered the U.S. since October 2013, compared to previous annual totals between 6-8,000.
