I've started my @ORCID\_Org ID. My publications are in different names so this is a perfect solution. Well done and thanks!

## One Wei or Another

Earning a name for yourself in science can be a struggle. Imagine how much harder it would be if your name was routinely confused with several others. That often happens to researchers with Asian names, many of which may share the same English transliteration.

王伟  
 王薇  
 王维  
 王蔚  
 汪卫  
 汪玮  
 汪威  
 汪巍

To address the issue, the American Physical Society (APS) will let authors with Chinese, Japanese, or Korean names include the Asian spellings (in parentheses after the English equivalent) on papers in the society's journals, including *Physical Review Letters*. An editorial announcing the policy in December noted that at least eight different Chinese names (shown at left) are transcribed as Wei Wang. "I think this is a great way to show that science is an international matter," says Wei Wang (王伟), a particle physicist at the University of Wisconsin, Madison. Adds Wei Wang (王巍), a biophysicist at the University of California, San Diego, "All the journals should do the same thing."

ORCID provides a persistent digital identifier that distinguishes you from every other researcher

Through integration in key research workflows such as manuscript and grant submission, ORCID supports automated linkages between you and your professional activities, ensuring that your work is appropriately attributed and discoverable

### Send Scopus Author details and publication list to ORCID

Your publications on Scopus may be spread over a number of different Author profiles, because these are generated automatically. In order to create a single profile containing the correct publications, please follow the steps in this wizard. On completion, any changes will also be sent as corrections to Scopus.

### ResearcherID & ORCID Integration

Accurate attribution has long been a challenge in the scholarly sphere. Whether one is the researcher, funder, publisher or another contributing to this ecosystem, it is critical that work be properly identified and tied to the right individual, institution, publisher or funder. Thomson Reuters has long known this, hence the reason for its ResearcherID solution. And, hence the reason for the company being a founding member of the Open Researcher and Contributor ID (ORCID) initiative.

## ... and association membership systems ...

The image displays two overlapping browser windows from the Society for Neuroscience website. The left window shows the 'Join or Renew' membership page, which includes a progress bar with four steps: 1. Address & Member Type, 2. Sponsor & Bio, 3. Profile, and 4. Donate. The 'Address & Member Type' step is active, showing a form for 'Membership Year' (January 1, 2015 - December 31, 2015) and 'Customer Address' (Scott Moore SFN3, 1121 14th St NW, Washington, DC 20005). A prominent ORCID logo is present, with text explaining that ORCID is a unique identifier used by scientific researchers and providing a link to 'Register for an ORCID ID'. Below the form, there is a section to 'Select the Appropriate Member Type' with radio button options for Post-Doc, Regular, Undergraduate Student, Graduate Student, and Affiliate.

The right window shows the 'My Account' page. It features a navigation menu with links to 'Annual Meeting', 'Careers & Training', 'Awards & Funding', 'Advocacy', 'Public Outreach', 'News & Calendar', and 'Member Center'. The main content area is divided into several sections: 'My Sfn', 'My Communications', 'My Orders', and 'My Profile'. A yellow callout box highlights the 'Membership' section, which includes a link to 'Join Now: Start your Membership Application' and a 'Member Directory' section with links to 'Find a Sponsor' and 'Find your Local Chapter'. Another ORCID logo is visible with links to 'Get your ORCID ID here', 'Register for an ORCID ID', and 'Learn more about ORCID'. On the right side of the page, there is a 'NeuroOnline' section with a list of articles, including 'NMDAR and related neuropathologies' and 'Visual Decision Making Nanosymposium'. At the bottom, there is a 'News from SfN' section with a featured article titled 'Processing New Information During Sleep Compromises Memory'.

## How do I register my ORCID id with the Wellcome Trust?

If you are an existing user of the Wellcome Trusts online application system [eGrants](#), you can verify your existing ORCID id via the 'Your Details' page of your eGrants account.

If you do not have an eGrants account or an ORCID id, you can register for both during the [eGrants](#) registration process. Further information can be found in the [eGrants User Guide](#) or by contacting [eGrants Support](#).

SciENcv is a new feature in My NCBI that helps users create an online professional profile that can be made public to share with others. In SciENcv users can document their education, employment, research activities, publications, honors, research grants, and other professional contributions. In addition, the SciENcv profile may include an [ORCID® ID](#), when registered with [ORCID](#).

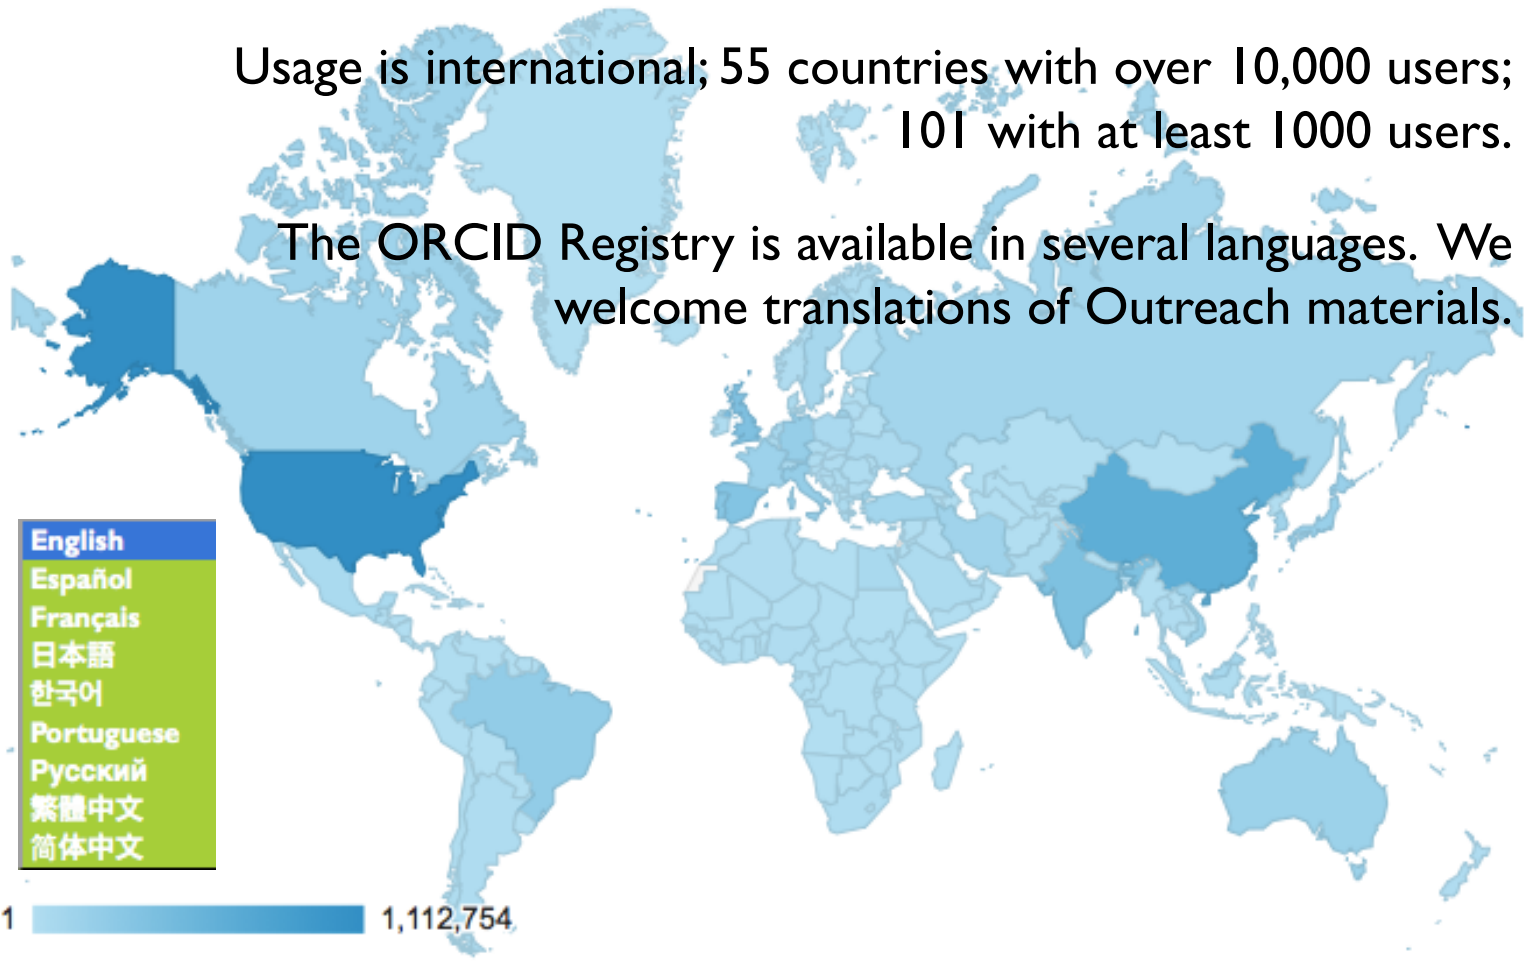

- ORCID is an interdisciplinary effort
- We have an international scope
- ORCID provides foundational services that improve scholarly communications for *all researchers*

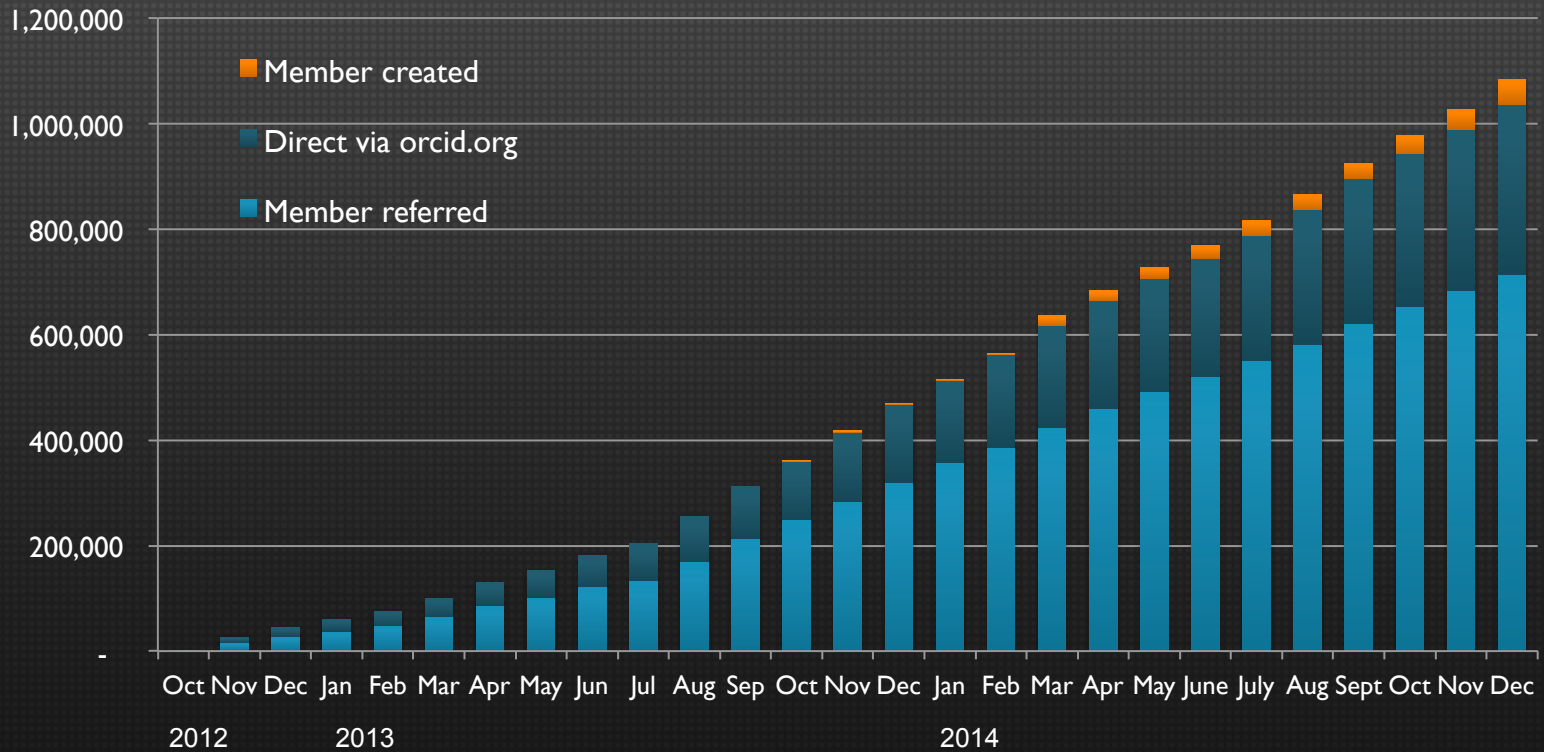

# Use is international

Usage is international; 55 countries with over 10,000 users;  
101 with at least 1000 users.

The ORCID Registry is available in several languages. We  
welcome translations of Outreach materials.

Over 1 million researchers have registered for an ORCID identifier.

# How does ORCID work?

- Registry allows researchers to connect to existing works and affiliations
- Members build integrations to connect researchers to new works and affiliations

"Researchers want to be read,

**LINK FUNDING**

**LINK WORKS**

ORCID has been working with many member organizations to make it easy to connect your ORCID iD, and link information from their records. Choose one of the links wizards to get started.

#### Airiti

Enables user to import metadata from Airiti, including journal papers, proceedings, dissertations and books. Scholars can easily collect and calculate all the research works that have been published. 研究者可匯入華藝所收錄的學術資源，包括兩岸三地的期刊論文、學位論文、會議論文集等內容，迅速蒐羅學術生涯中所有的書寫姓名及完整作品，讓研究活動及成果獲得正確地引用，且更快速梳理並展現個人的研究影響力，將華文地區優秀學者及高品質研究推廣至國際。

#### Australian National Data Service (ANDS) Registry

Import your research datasets into ORCID from Australian National Data Service (ANDS) and Research Data Australia (RDA). ANDS is partnering with Australian research institutions and data producing agencies to improve discovery and reusability of research data across many research domains from earth science to technology and engineering.

#### CrossRef Metadata Search

Search CrossRef's comprehensive metadata archive for journal articles, proceedings and monographs. Easily add search results to your ORCID profile.

#### DataCite search and link

Search the DataCite Metadata Store to find your research datasets, images and other works. Then claim them by adding them to your ORCID profile.

#### Europe PubMed Central

Europe PubMed Central (Europe PMC) contains all of PubMed, 500K records from Agricola that cannot be found in PubMed, 4 million records from Europe PMC, and 4 million records from Europe PMC that share with PMC in the USA.

#### ISNI2ORCID search and link

Enables user to search the ISNI records and link them to his ORCID profile as an external identifier.

#### ResearcherID

ResearcherID is a global, multi-disciplinary scholarly research community where members can register for unique identifier, build a profile of their scholarly works, view citation metrics, and search for like-minded researchers.

#### Scopus to ORCID

Import your Identifier, profile and publications. The wizard helps you find the correct Scopus profile and to confirm your publications. You can then import the identifier and list of publications into ORCID. Any changes you make will be submitted to the Feedback team to update your Scopus profile.

Don't see what you are looking for? You can connect your ORCID iD to many other organizations and sites. See our [Member Integration Page](#) to find more connections.

Researchers can connect to existing works and push ORCID iD into indexes including Web of Science, Scopus, and Europe PubMedCentral

# Link to existing works

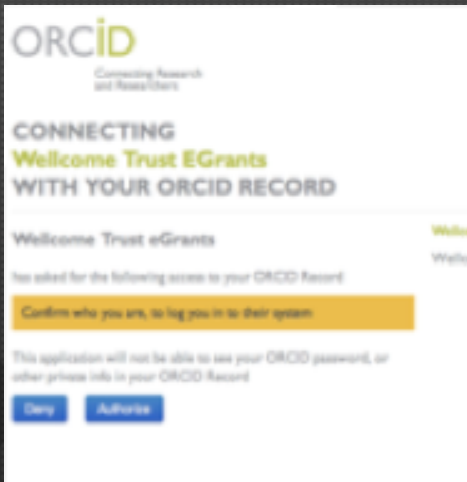

Connect your ORCID iD to existing works by using tools in ORCID interface or in external platforms

The screenshot shows the 'MLA ORCID Application' interface. At the top, there are navigation links for 'Link 1', 'Link 2', and 'Link 3'. Below the header, there are buttons for 'Refine Search' and 'Done'. The main content area is titled 'Search Result for:' and lists two authors: Neil Balavram and Hugo Achugar. Under Hugo Achugar, there are search filters for 'Year' (1990 (5)) and 'Publisher' (Ed. del Norte/City Univ.). The search results list five publications, each with a green checkmark and the text 'Added to ORCID':

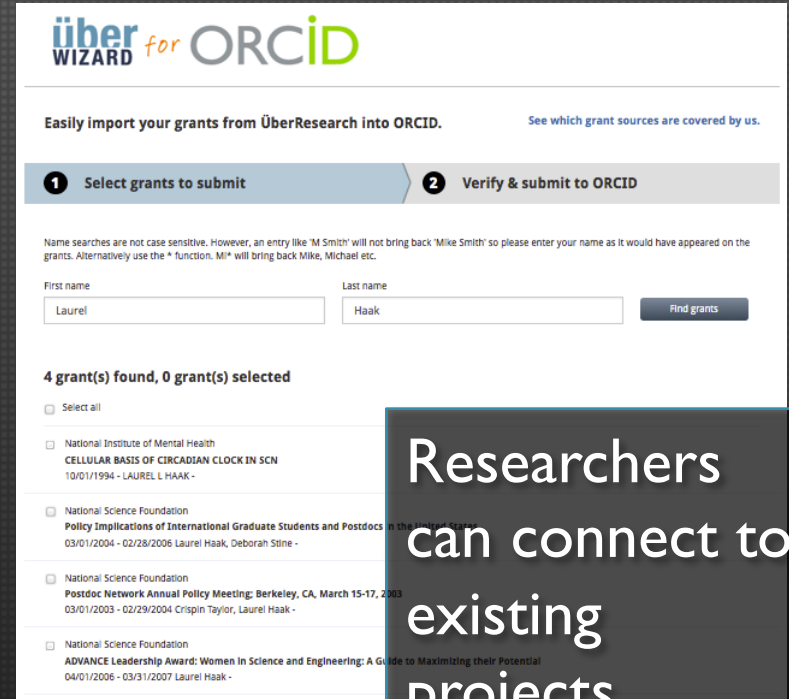

- Primeros apuntes para una historia de la crítica uruguaya Lbl Pub1,1990 Author: Hugo Achugar
- Postmodernity and fin de siècle in Uruguay Lbl Pub2, 1990 Author: Hugo Achugar, Jean Franco

## Build the infrastructure:

- Create the tools to allow for easy addition of ORCID iD during publishing, grant application, thesis deposit, etc.
- Engage the community to embed tools
- Ensure that the iD is published with the paper / dataset / grant / thesis, etc.
- Work with the community to push metadata back to ORCID record

Over 195 members and 100 integrations in every region and sector of the international research community.

Some countries are taking a national approach to ORCID integration, with universities, the national library, and funders coordinating efforts to develop a national CRIS/IR fed (in part) by data from ORCID:

- *Austria*: Funder requirement 2016
- *Denmark*: University launch 2014
- *Portugal*: Funder requirement 2013
- *Sweden*: National recommendation 2013
- *UK*: National recommendation 2012

To support staged adoption, ORCID has developed a new group membership policy.

## Coming in 2015:

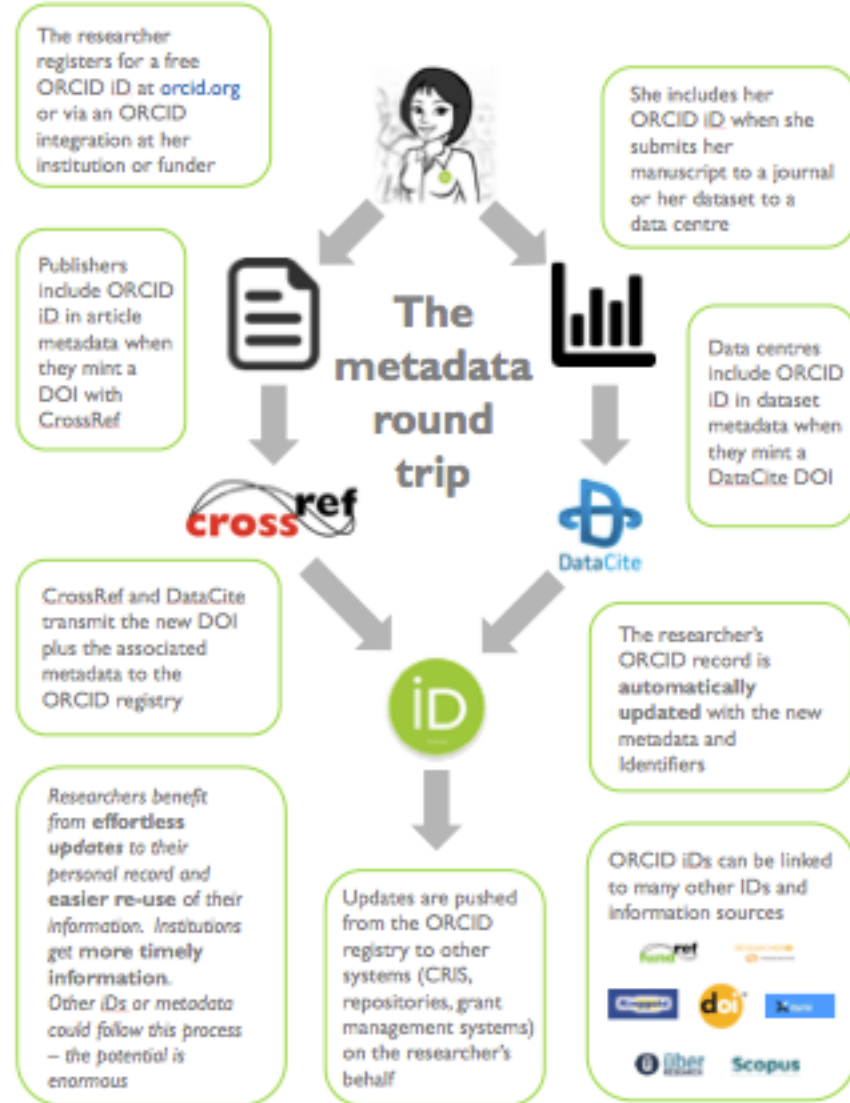

The author can pre-populate submission form fields: preferred name, affiliation, funding

The authenticated iD becomes a part of the paper

Upon publication, the iD is indexed by CrossRef, Scopus, Web of Science, and other services.

Information flows through ORCID to linked platforms

## Capture, embed, interoperate:

- Over 130,000 articles have been submitted to CrossRef with an associated ORCID iD
- These will start to flow into the ORCID registry before the end of the year
- ***Researchers who use their ORCID iD when they publish will not need to manually update their record in ORCID or in connected systems***

## Be the interface with the researcher

- Explain the importance of digital information
- Provide information on ORCID
- Train researchers in using ORCID iDs
- Work with your organization to embed ORCID identifiers into systems

- Written documents
- Videos
- Office hours
- Training sessions
