

Modular Messaging Web Subscriber Options

Web Subscriber Options (WSO) allows you to manage call handling and Voice Mail Options from a browser interface. You will need to access the WSO to assure that your Message Waiting Indicator Light is set to be activated. The following steps will guide you through the set-up process:

1. Open a browser and type <http://voicemail.american.edu> as the URL.
2. Type your telephone extension in the **MAILBOX NUMBER** input field.
3. Type your voicemail password in the **PASSWORD** input field.
4. Then press the **LOGON** button.
