Workshop Descriptions:

Critical Thinking: Strengthen your analytical skills to become a more active and engaged learner.

Effective Reading: Learn to read effectively and efficiently.

Graduate Comprehensive Exams: Strategies for organizing and remembering information and for taking written, closed book comprehensive exams.

How to Study for Tests: Improve your test performance with effective study techniques.

Note Taking Skills: Enhance your approach to taking lecture notes.

Nuts & Bolts of Academic Success: Learn the skills needed to be academically successful in school.

Overcoming Procrastination: Stop delaying what you need to do.

Public Speaking: Tips to help you give your best presentation.

Time Management: Discover ways to make time work for you.

Writing in the U.S.: A Cross-Cultural Workshop for International Students: Includes expectations for U.S. academic writing style.

Writing Research Papers—

A Workshop for Graduate students: Special emphasis on literature reviews and original research.

An Introduction for Undergraduate Students: Learn the steps to plan and write more effective papers.

ALL WORKSHOPS WILL BE HELD IN **MGC 245** UNLESS OTHERWISE INDICATED.
STUDENTS ARE WELCOME TO ATTEND ANY WORKSHOP.
NO REGISTRATION IS REQUIRED.
