Community-Based Learning Partners

Interested in connecting your course with a local community issue? Visit the Center for Community Engagement & Service (Mary Graydon Center, room 264/273) to learn about area nonprofit organizations and schools seeking direct service and project based support. Meg Rego, the Program Coordinator for Community-Based Learning (rego@american.edu), is available to connect your areas of interest and skills with established community partners. You can also stop by the Community Service Fair on Monday, January 22nd from 1:30-3:30 in MGC 200 to hear from over 15 nonprofit agencies seeking support.
