<table>
<thead>
<tr>
<th>Funding Opportunities</th>
<th>Description</th>
<th>Deadline(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Travelling Fellowships - Company of Biologists Limited (CoB)</td>
<td>The Company of Biologists' journals - Development, Disease Models &amp; Mechanisms (DMM), Journal of Cell Science and The Journal of Experimental Biology - offer fellowships to graduate students and post-doctoral researchers wishing to make collaborative visits to other laboratories.</td>
<td>30-Apr-15</td>
</tr>
<tr>
<td>Graduate Psychology Education [GPE] Program - Health Resources and Services Administration (HRSA)</td>
<td>Program Purpose The funding supports American Psychological Association (APA)-accredited doctoral level schools and programs of health service psychology and APA-accredited doctoral internships in health service psychology to provide didactic and experiential training to students and interns interested in working with the target populations in clinical psychology practice.</td>
<td>16-Dec-15</td>
</tr>
<tr>
<td>Conservation, Food &amp; Health Foundation - Geographic Focus Developing World</td>
<td>The foundation's geographic focus is the developing world. It prefers to support organizations located in developing countries or to developed country organizations whose activities are of direct and immediate benefit to developing countries. The foundation does not consider the states of the former Soviet Union or former Eastern Bloc countries as within its geographic focus.</td>
<td>1-Jan-16</td>
</tr>
<tr>
<td>The Greenwall Foundation - Faculty Scholars – Junior Faculty in Bioethics</td>
<td>We commonly receive proposals to carry out an empirical study of a topic that has a bioethics component. The most successful of these proposals have already conducted enough empirical research to allow the applicant to discuss what conceptual or normative bioethics issues they will focus on. Because the Greenwall Faculty Scholar award supports only effort of the Scholar, other support will be needed to collect and analyse new empirical data.</td>
<td>11-Jan-16</td>
</tr>
<tr>
<td>ORAU - Ralph F. Powe Junior Faculty Enhancement Awards</td>
<td>This program seeks to improve the quality and expand the scope of research and research training in science and engineering, and to foster the integration of research and education by providing instrumentation for research-intensive learning environments. The MRI program encourages the development and acquisition of research instrumentation for shared inter- and/or intra-organizational use and in concert with private sector partners.</td>
<td>11-Jan-16</td>
</tr>
<tr>
<td>National Science Foundation - NSF Major Research Instrumentation Program</td>
<td></td>
<td>13-Jan-16</td>
</tr>
<tr>
<td>Phi Beta Kappa Award in Science</td>
<td>The Phi Beta Kappa Book Awards are given annually in December in Washington, DC to outstanding scholarly books accessible to the general, literate reader in the fields of humanities, the social sciences, the natural sciences, and mathematics.</td>
<td>15-Jan-16</td>
</tr>
<tr>
<td>Gerda Henkel Foundation - Gerda Henkel Prize</td>
<td>Every two years, the Gerda Henkel Foundation awards the Gerda Henkel Prize for outstanding research in the historical humanities. The prize is worth € 100,000. On behalf of the Foundation’s Board of Trustees, we are delighted to invite you to nominate a candidate for the Gerda Henkel Prize 2016.</td>
<td>15-Jan-16</td>
</tr>
<tr>
<td>SUNY - Technology Accelerator Fund</td>
<td>The SUNY Technology Accelerator Fund (“TAF”) provides funding to support the advancement of SUNY technologies from the lab to the marketplace. In many cases, SUNY technology developed through sponsored research lacks critical proof-of-concept data that is needed to attract investment by potential licensees or investors. TAF support targets the critical milestones needed to demonstrate that a technology is worthy of external investment.</td>
<td>15-Jan-16</td>
</tr>
<tr>
<td>CDC - Evaluating the Impact of Non-pharmaceutical Measures on the Incidence of Influenza-like Illness (ILI) among K-12 Students in the United States</td>
<td>This announcement solicits applications for the MCH Pipeline Training Program (MCHPTP). The purpose of the MCHPTP is to promote the development of a culturally diverse and representative health care workforce by recruiting undergraduate training students from economically and educationally disadvantaged backgrounds (including racial and ethnic minorities) into maternal and child health (MCH) professions.</td>
<td>15-Jan-16</td>
</tr>
<tr>
<td>Health Resources and Services Administration (HRSA) - MCH Pipeline Training Program</td>
<td>Nonhuman primates (NHPs) are most closely related to humans, both physiologically and genetically. Therefore, NHPs are critical animal models for translational research aimed at understanding human biology, both in normal and diseased states.</td>
<td>22-Jan-16</td>
</tr>
<tr>
<td>Limited Competition: National Primate Research Centers (P51) - United States Department of Health and Human Services (HHS)</td>
<td></td>
<td>25-Jan-16</td>
</tr>

NIH - Postbaccalaureate Research Education Program (PREP) (R25) 25-Jan-16

NIH - Initiative for Maximizing Student Development (IMSD) (R25) 26-Jan-16

NSF - Partnerships for Innovation: Building Innovation Capacity (PFI-BIC) 27-Jan-16

St. Baldrick’s Foundation - Research Grants

Purpose: designed for research projects which are hypothesis-driven and focus on areas related to the supportive care of children and adolescents with cancer. Examples include studies related to symptom clusters, patient reported outcomes/quality of life, health communication, health promotion, and psychosocial support across the trajectory from diagnosis to survivorship or end-of-life care 29-Jan-16

NIH - NIH Director’s Early Independence Awards (DP5) 29-Jan-16

DOE - Manufacturing Innovation Institute for Smart Manufacturing 29-Jan-16

Health Resources and Services Administration (HRSA) - Emergency Medical Services for Children Targeted Issues Program

The purpose of this announcement is to solicit applications from the Health Resources and Services Administration (HRSA), HIV/AIDS Bureau (HAB), AIDS Education and Training Center National Clinician Consultation Center (AETC NCCC), a component of the HRSA AIDS Education and Training Center (AETC) Program. The purpose of the AETC NCCC is to supply health care providers with a national resource to obtain timely and appropriate responses to clinical questions relating to: 1) the treatment of people living with HIV (PLWH) and those at high risk for HIV infection; 2) health care worker exposure to HIV and other blood borne pathogens (e.g., viral hepatitis); 11-Feb-16

Blavatnik Regional Awards - The Regional Postdoctoral Competition of the 2016 Blavatnik Awards for Young Scientists program

The Regional Postdoctoral Competition of the 2016 Blavatnik Awards for Young Scientists program. The 2016 solicitation will be announced soon, but for your reference the 2015 solicitation can be found at Blavatnik Awards for Young Scientists-2015 Regional Postdoctoral Competition 2-Feb-16

ASNE Awards - Batten Medal

The award recognizes a body of work covering a period of up to three years, that represents the journalistic values Jim stood for: compassion, courage, humanity and a deep concern for the underdog. In short, journalism that makes a difference in the lives of real people and their communities. 5-Feb-16

ASNE Awards - Community Service Photojournalism Award

This category rewards photography that captures the sense of a community with powerful and meaningful images and provides an understanding of the community. All photos submitted must have been published in a newspaper or on a news website. Individual or teamwork will be accepted in this category. 5-Feb-16

Department of Health and Human Services - Leadership Education in Neurodevelopmental and Other Related Disabilities (LEND) Program

This announcement solicits applications for the Leadership Education in Neurodevelopmental and Other Related Disabilities (LEND) Maternal and Child Health (MCH) Training Program. The purpose of this graduate-level training program is to improve the health of infants, children, and adolescents who have, or are at risk for developing, autism spectrum disorder (ASD) or other neurodevelopmental and other related disabilities (DD), by expanding interdisciplinary training opportunities for graduate-level trainees from a wide variety of professional disciplines. 5-Feb-16

NSF - Research Traineeship (RFT) Program – Innovations in Graduate Education (IGE) Track 9-Feb-16
Josiah Macy Jr. Foundation - Faculty Scholars Program 2016

The Foundation is looking for nursing and medical school faculty who are committed to careers in health professional education, have served for more than five years on the faculty of the sponsoring school, are innovators, and have shown promise as future leaders.

National Endowment for the Arts 1 NEA Grants for Organizations

Grants for Organizations support exemplary projects in artist communities, arts education, dance, design, folk and traditional arts, literature, local arts agencies, media arts, museums, music, opera, presenting and interdisciplinary works, theater and musical theater, and visual arts. The 2016 solicitation has been released and can be accessed in the links below.

National Science Foundation - National Science Foundation Research Traineeship (NRT) Program

The NSF Research Traineeship (NRT) program is designed to encourage the development of bold, new, potentially transformative, and scalable models for STEM graduate training that ensure that graduate students develop the skills, knowledge, and competencies needed to pursue a range of STEM careers. The NRT program initially has one priority research theme - Data-Driven Science and Engineering (D2SE); in addition, proposals are encouraged on any other crosscutting, interdisciplinary theme.

NSF - Mid-scale innovations program in astronomical sciences

Health Resources and Services Administration, Emergency Medical Services for Children Targeted Issues Program

This announcement solicits applications for the Emergency Medical Services for Children Targeted Issues Program. The Emergency Medical Services for Children (EMSC) program works to ensure that critically ill and injured children receive optimal pediatric emergency care. The goal of the Targeted Issues Program is to support strategies to improve the quality of pediatric care delivered in emergency care settings across the continuum of emergency care through the implementation of pediatric emergency care research and innovative cross-cutting projects.

Department of Health and Human Services, Ryan White HIV/AIDS Program Integrated HIV Planning Implementation

The aim of research projects should be to improve the health, general well-being, and safety of student-athletes at all Pac-12 member institutions. The Grant Program’s primary focus areas are listed below. Although this is not an exclusive Grant Program focus list, priority will be given to those research projects targeted at the focus areas below.

The Pac-12 Conference - Student-Athlete Health and Well-Being Grant Program 2016

Applicants for grants are considered in the following areas: Education, Social Service, Healthcare, Civic and Cultural and Environmental.

Dr. Scholl Foundation - Annual Grants 2016

Young Researchers Award (YRA) - Global Biodiversity Information Facility (GBIF)

The Award is to foster innovative research and discovery in biodiversity informatics.
Environmental Health Sciences Core Centers (EHS CC) (P30) - National Institutes of Health (NIH)

This Funding Opportunity Announcement (FOA) invites grant applications from qualified institutions to support Environmental Health Sciences Core Centers (EHS CC). A Core Center Grant is an institutional award to support centralized scientific resources and facilities shared by investigators with existing research projects. 2-23-16

Young Faculty Award (YFA) - Defense Advanced Research Projects Agency (DARPA)

DARPA is soliciting innovative research proposals in physical sciences, engineering, materials, mathematics, biology, computing, informatics, and manufacturing of interest to DARPA’s Defense Sciences Office (DSO), Biological Technology Office (BTO) and Microsystems Technology Office (MTO). 4-13-16

USD/NIFA - Biotechnology Risk Assessment Research Grants Program

PMI invites proposals from scholars both within and outside the field of project management (e.g. management and/or its sub-fields, organizational psychology, sociology, education, linguistics, communications, etc.) whose work has direct application to some aspect of the project management body of knowledge or its practice. 4-26-16

The American Honda Foundation - Grants 2016

The American Honda Foundation engages in grant making that reflects the basic tenets, beliefs and philosophies of Honda companies, which are characterized by the following qualities: imaginative, creative, youthful, forward-thinking, scientific, humanistic and innovative. We support youth education with a specific focus on the STEM (science, technology, engineering and mathematics) subjects in addition to the environment. 5-1-16

OJJDP FY 2015 Tribal Youth Program Training and Technical Assistance - United States Department of Justice (DOJ)

OJJDP is seeking a Tribal Youth Program training and technical assistance provider to provide culturally, trauma-informed, and developmentally appropriate training; support; resources; information; and other related... more » technical assistance to all OJJDP tribal program grantees and federally recognized tribes across the nation. 5-12-16

National Institutes of Health (NIH) - Shared Instrumentation Grant (S10) Program

The High-End Instrumentation (HEI) Grant Program encourages applications from groups of NIH-supported investigators to purchase or upgrade a single item of expensive, specialized, commercially available instruments or integrated systems that cost at least $600,000. 5-16-16

National Institutes of Health (NIH) - High-End Instrumentation (HEI) Grant Program (S10)

The purpose of the HEI project is to improve the enabling environment for equitable and sustainable health services, supplies and delivery systems through policy development and implementation, with an emphasis on... more » voluntary, rights-based family planning and reproductive health (FP/RH), maternal and child health (MCH), and HIV and AIDS. 5-31-16

Smart on Juvenile Justice: Community Supervision Training and Technical Assistance Program - United States Department of Justice (DOJ)

This grant program will provide training and technical assistance to state and local government agencies and federally recognized Indian tribes to support their efforts to implement evidence-based reform strategies to reduce recidivism and improve outcomes for juveniles under community supervision. 6-10-16

Climate Program Office 2016 - United States Department of Commerce (DOC)

NOAA advances scientific and technical programs to help society cope with and adapt to today’s... more » variations in climate and to prepare for tomorrow’s. Toward this end, the agency conducts and supports climate research, essential oceanic and atmospheric observations, modeling, information management, assessments, interdisciplinary decision-support research, outreach, education, and partnership development. 7-30-16

Barrett & Steele Investigative Business Journalism Awards

The award celebrates the best in print and online investigative business journalism. Entries for the 2015 award must have appeared in the year ending June 30, 2015. 8-1-16
Informatics - Pre-Doctoral Fellowships - (PhRMA Foundation)

Pre Doctoral Fellowships are available through the Informatics program. The aims of the fellowships are (1) to support students in advanced stages of training and thesis research and (2) to encourage the entry of well-trained investigators into the informatics field. 11-Sep-16

Established Investigator Grant - Scleroderma Foundation

The Foundation seeks applications from promising individuals both inside and outside the field of scleroderma research who wish to propose pilot studies to obtain preliminary data dealing with a highly innovative and/or highly relevant theme related to the disease. This grant will support pilot research that is likely to lead to more substantial unlimited research project grants from federal or non-federal sources. 15-Sep-16

Sloan Research Fellowships - Sloan Foundation, Alfred P.

The Sloan Research Fellowships seek to stimulate fundamental research by early-career scientists and scholars of outstanding promise. These fellowships are awarded in recognition of distinguished performance and a unique potential to make substantial contributions to their field. 15-Sep-16

Global Labor Program - United States Agency for International Development (USAID)

USAID has a strong tradition of supporting international labor programs designed to... more » foster democratic development and inclusive economic growth around the world. As demonstrated through previous USAID experience, promoting labor rights and strengthening workers’ organizations can be vital to promoting effective democracies and sustainable development. 24-Sep-16

Higher Education Grant Program-Procter & Gamble Company (P&G)

The Procter & Gamble Fund Higher Education Grant Program has been established to provide support for efforts of nationally accredited U.S. colleges and universities that will better prepare students for success in... more » business. Grants will be provided for specific projects or programs, not for operating support. 30-Sep-16

Co-Sponsored Fellowships (Special Fellowships): Willem F. Duisenberg Fellowship Prize (WFDF Prize) - Netherlands Academy of Arts and Sciences

The Prize is awarded to outstanding young scholars in the area of applied monetary economics, applied macroeconomics, financial stability or public finance. 2-Nov-16

Grants are made in the areas of Arts and Humanities, Community Services, Education, Health and Environment. 11-Sep-16

The Foundation seeks to be responsive to community issues and needs. Our process is highly competitive and is open to new projects and new organizations. The following summary, Examples of our Grant-Making, is offered to help guide applicants. While this is not intended to be an exhaustive description and may, as appropriate, change over time, we hope that the following will suggest the kind of meaningful work in which the Foundation is... March 1 & November (date varies)

http://www.cafritzfoundation.org/apply/application-process

Partnerships for International Research and Education (PIRE) - National Science Foundation (NSF)

PIRE is an NSF-wide program that supports international activities across all NSF supported disciplines. The primary goal of PIRE is to support high quality projects in which advances in research and education could not... more » occur without international collaboration. TBA

Journalism Award Program

The program awards scholarships to students for outstanding performance in college-level journalism, with matching grants to the students' schools. The annual program offers up to $500,000 in awards, consists of five monthly writing competitions, two photojournalism competitions, three broadcast news competitions (one in radio and two in television), and four multimedia competitions - with championship finals in all divisions. Varies

Project Funding - National Film and Video Foundation (NFVF) - South Africa

Individuals, companies, and organisations may submit funding applications to the NFVF for grants or grant loans in any of the four funding categories. Varies

Bureau of Education and Cultural Affairs - Exchange Programs

Professional Fellowship Programs Varies
