Located in a residential neighborhood of Washington, D.C., American University (AU) is a dynamic college-centered research university recognized for its academic innovation.

AU is characterized by our distinguished faculty, our active students, and our Washington, D.C. location. Our faculty are world-class scholars, practicing professionals in their field, and engaging classroom teachers. Our active and engaged students are always seeking ways to make a meaningful impact on the world around them. Finally, we bring this all together in Washington, D.C., our laboratory for learning and our extended classroom.

This uniquely AU experience is built to offer you unparalleled access and opportunities. From networking prospects and internships available nowhere else in the world to the opportunity to study abroad in more than 135 different locations, you have all the opportunities you need to reach your full potential.

American University is committed to providing all our students with opportunities to engage with issues through academics, research, investigation, and personal experiences. We hope you will consider becoming a part of this truly special community.

@AUAdmission
American University Admissions
@au_ambassadors
American University is committed to a robust liberal education core that challenges students to engage with complexity, value diversity, and understand change. To foster this, all students entering in the fall 2018 semester will be enrolled in AU Core, AU’s innovative new general education program. In addition to these foundational courses, every student will be assigned a specialized First Year Advisor to help them better navigate the transition to college.

During this first year, students will complete the American University Experience (AUx) as well as take a First-Year Complex Problems seminar. First-year students will also take foundation courses in University Writing and University Math.

The American University Experience (AUx)
The American University Experience (AUx) is a full-year course specially designed for students transitioning into their first year of college at AU. Students who complete AUx1 in the fall (1.5 credits) and AUx2 in the spring (1.5 credits) will receive a total of 3.00 credits toward their general education requirements.

Through classroom discussions, assignments, and office hours, AUx1 provides a place for students to establish their short- and long-term goals; build academic skills for college success; learn about issues of privilege and bias; and explore their own personal identities. AUx1 course learning outcomes are achieved through online learning, in-class activities, reflective writing assignments, and individual and small group discussions with course Instructors, Peer Leaders, and classmates. Best of all, a student’s First Year Advisor will be their instructor for AUx1.

AUx2 is unique to American University, and has been created specifically as a call to action by AU students, staff, and faculty who want to ensure that diversity, inclusion, free speech, and freedom of expression are part of the core curriculum at American University. AUx2 aims to equip students to become part of a community of learners whose members come from a variety of backgrounds and bring with them a range of experiences.

Complex Problems
Complex Problems courses are specially-designed for first-year students, enrolling no more than 19 students per section. The primary goal of the course is to acquaint students with the process of university-level inquiry through the analysis of one or more complex problems. Over the course of the semester, Complex Problems courses demonstrate the value of approaching problems or enduring questions from diverse (but often complementary) perspectives. Courses incorporate multiple points of view, voices, and ways of thinking from across personal and political spectrums.

Examples of Complex Problem course titles include: Dying, Death, and the Afterlife; Inventing Queer Lives; Are You a Digital Citizen?; and The Big Short: Money and Power.

University College
Students in the University College Living Learning Community (UC) will make new connections and fast friendships by participating in an academic living-learning community with other first-year students. UC students take a unique Complex Problems course where they will approach an intricate issue facing society with no clear solutions. When students choose the University College Living Learning Community, they live on a floor with students studying similar topics under one common theme. Living together with other students and taking Complex Problems courses creates an exceptional scholarly environment where learning moves beyond the classroom.

Some benefits of University College include:
• Earn General Education credit
• Enjoy small class sizes, with 19 or fewer students
• Form a diverse and inclusive community with your University College Living Learning Community peers
• Grow intellectually and personally through curricular and co-curricular experiences
• Experience the support of a dedicated Faculty Fellow and Peer Leader
• Develop the skills and experiences that lead to future success
### APPLYING TO AU

#### HOW TO APPLY

Use the Common Application or Coalition Application to apply to American University; there is a $70 application fee.

Our admissions office is interested in your academic pursuits and also what you do outside the classroom. This information—along with transcripts, essays, and letters of recommendation—helps us evaluate you.

We offer two application plans for prospective students: Early Decision and Regular Decision.

#### EARLY DECISION PLAN

If American University is your first choice, you can apply through our Early Decision Plan (see Deadlines, below). You may apply to other schools while your application to AU is being reviewed. However, if you are offered admission to AU as an Early Decision applicant, you must immediately withdraw applications to all other colleges and universities.

Note: Early Decision is binding; if you are admitted through this plan, you agree to enroll at American University.

#### APPLYING TEST OPTIONAL

You may apply to American University through our Early or Regular Decision Plan without submitting standardized test scores. While tests help to predict your potential for success in college, your academic performance in the classroom is the most important factor in our review of your application. We also consider qualitative factors, such as your essay, letters of recommendation, and extracurricular activities. To apply without standardized test scores, select the test-optional preference on the Common Application or Coalition Application.

Note: Your decision to apply test optional is irreversible; once you have applied, you cannot change your decision.

FINANCIAL AID

American University awards financial aid to students based on a combination of demonstrated financial need, academic achievement in high school or college (transfers) and the availability of funds. Once you have been admitted to American University, the Office of Financial Aid will determine your need and develop a financial aid award that includes funds from the programs for which you qualify. In addition to awarding funds from American University, we also administer federal grant, loan and work-study programs that may be included in the award. Your financial aid award may include a combination of an American University grant, federal grants, federally subsidized or unsubsidized loans and/or student employment.

APPLYING FOR FINANCIAL AID AT AMERICAN UNIVERSITY

1. Complete and file the CSS/Financial Aid PROFILE (Profile). To complete and file a Profile application, go to: student.collegeboard.org/css-financial-aid-profile

2. The Department of Education must receive your Free Application for Federal Student Aid (FAFSA) by the deadlines stated below for you to receive priority consideration for federal and university aid. The FAFSA must be filed every year. To file a FAFSA, go to www.fafsa.ed.gov.

3. Submit supporting verification documentation if requested. Students may be required to submit the following documentation to verify information reported on the FAFSA: a) Parent(s)’ signed 2016 Federal Tax Returns; b) Student’s signed 2016 Federal Tax Returns; and c) other documentation that may be needed upon request.

SCHOLARSHIPS

American University believes that applicants who demonstrate academic excellence should be rewarded for their effort and ability. The Admissions Committee makes all merit-based scholarship decisions and notifies freshman students at the time they are admitted. These scholarships do not require a separate application and are renewable.

ATHLETIC SCHOLARSHIP
Students should contact the coach of the sport in which they excel. See www.aueagles.com.

TUITION EXCHANGE SCHOLARSHIP
For the children of faculty and staff employed by participating colleges and universities, parents should contact the Tuition Exchange officer at the institution that employs them.

PRIVATE/RESTRICTED SCHOLARSHIPS
A limited number of scholarships are funded through an endowment by donors and are available annually. Applicants for financial aid are automatically reviewed by the Financial Aid Office for eligibility for these scholarships. A separate application is not required, but recipients may have to meet specific donor criteria.

YELLOW RIBBON PROGRAM
American University participates in the Veteran Administration’s Yellow Ribbon Program. For additional information and to apply, veterans and dependents of eligible veterans may go to: american.edu/veterans/applications-information.cfm

AMERICAN PAYMENT PLAN

The American Payment Plan (APP) is a monthly payment plan available to all full-time students. Information about the APP will be mailed by the AU Student Accounts Office to admitted students during the summer before they begin attending classes.

IMPORTANT DEADLINES:

EARLY DECISION: Complete and submit the CSS Profile to the College Board and the FAFSA to the Department of Education by November 15.

EARLY DECISION 2: Complete and submit the CSS Profile and the FAFSA by January 15.

REGULAR DECISION FRESHMEN: Complete and submit the CSS Profile and the FAFSA by January 15.
The Global International Relations (GIR) Joint Degree Program, created in partnership with Ritsumeikan University (RU) located in Kyoto Japan, is the only joint bachelor’s degree program between an accredited U.S. and Japanese university. A selective, four-year program, the GIR enables students to be jointly enrolled in both universities for the duration of the program. GIR students have a unique opportunity to connect with students from around the world in addition to AU and RU faculty with varied expertise in the field of international relations and more specifically, U.S. and East Asia affairs.

All degree requirements, curricula, and student activities have been jointly designed by the faculty and administration from AU’s School of International Service, the largest international relations school in the United States, and RU’s College of International Relations, recognized as the first and most comprehensive undergraduate international relations program in Western Japan.

Students spend the first year of the program at AU, the middle two years at RU, and the last year of the program at AU. Culminating the four-year program, graduates of the GIR have a diploma accredited by both a U.S. and Japanese institution, providing an invaluable connection to a global career network.

Students enrolled in the GIR will be able to select one of the following concentrations by taking complementary coursework at both AU and RU:

- Global and Comparative Governance
- Identity, Race, Gender, and Culture
- Peace, Global Security, and Conflict Resolution

GIR students will also complete area studies, language requirements, and a senior capstone project. For the duration of the program, students will have access to institutional resources, as well as academic advisors and faculty from both schools.

**Application process**
The GIR Program extends invitations to all incoming freshman who demonstrate an interest in international relations (specifically U.S. and East Asian Affairs). Please note, this program includes a two-year commitment to study at Ritsumeikan University in Kyoto, Japan.

american.edu/admissions/academicprograms.cfm
HONORS PROGRAMS

AU HONORS PROGRAM
The AU Honors Program is for those students who want to understand the issues of today by digging into them from every possible angle. Every course in this four-year program is taught by a team of faculty from different disciplines so that you will emerge specially prepared to think broadly, creatively, and collaboratively. You will work in teams on a project that will put your skills and knowledge into practice.

Leaving lecture halls behind, you will work with professionals, scholars, scientists, artists, and policy makers from such institutions as the Smithsonian, the National Security Agency, the National Endowment for the Humanities, the World Bank, and the National Institutes of Health, among others. Key to your success will be your faculty mentor, who will help you discern not just your path through college but your path afterward.

Only 20 students are admitted each year, and all are guaranteed to receive a $30,000 merit scholarship. We seek highly motivated, extraordinary students who have demonstrated high academic achievement, curiosity, creativity, and leadership.

Students who wish to be considered for this program must submit an application. Instructions on how to submit the application can be found on the Common Application or Coalition Application.

american.edu/learning-communities/honors

FREDERICK DOUGLASS SCHOLARSHIP PROGRAM
Selected on the basis of demonstrated service, focused creativity, and leadership potential, the award-winning Frederick Douglass Scholars are inspirational champions of freedom, inclusion, and social justice. These exceptional undergraduates engage faculty, alumni, and dignitaries in seeking innovative solutions to the world's most pressing problems.

The Frederick Douglass Scholarship Program is distinctive as the participants not only complete the AU Honors Program, but also prepare to attend the best graduate schools, pursue influential careers, and implement sustainable change in underserved and under-resourced communities.

Five students are selected each year to be Frederick Douglass Scholars. Each scholar receives full tuition, general fees, books, on-campus housing, and a meal plan. The scholarship is renewable for a total of four years of undergraduate study, provided scholars satisfy academic and program requirements. We seek ambitious, well-rounded students who are dedicated to improving under-resourced and under-served communities around the world.

Students who wish to be considered for this program must submit an application. Instructions on how to submit the application can be found on the Common Application or Coalition Application.

american.edu/learning-communities/douglassscholars

THREE-YEAR SCHOLARS PROGRAMS
Three-Year Scholars are a unique group of students at American University, interested in pursuing a bachelor's degree in three years as opposed to the traditional four.

Each three-year program is designed to be academically rigorous, yet still offer the full benefits of a traditional college experience. Students reside in a living-learning community during the first year, where the learning activities extend from the classroom into the residence halls. Special academic programming during the summer months provide the opportunity for students to remain intellectually engaged in their studies year-round.

While the curriculum varies for each program, all Three-Year Scholars programs allow students to develop strengths in investigation and inquiry related to their disciplines through seminars and other special activities beyond a traditional curriculum. Some programs even offer the chance to earn a master’s degree with an additional two or three semesters of course work, depending on the program.

Programs:
- Global Scholars
- Politics, Policy and Law Scholars
- Public Health Scholars

Features and benefits of the programs:
- Study and live with a cohort during the first year in a living-learning community.
- Receive enhanced mentoring by faculty and alumni.
- Attend special summer seminars and programs.
- Take a typical course load (15-17 credits/semester).
- Receive priority course registration each semester.
- Use financial aid, including scholarships, toward summer expenses.
- Earn a MA in some programs with additional two or three semesters (varies by program).

american.edu/learning-communities/3yrscholars
AU SCHOLARS PROGRAM

The AU Scholars Program is a selective, two-year living-learning community that fosters creativity, critical thinking, and problem solving through transformative research experiences and other scholarly activities. The AU Scholars Program provides high-achieving students an exciting and scholarly environment that challenges them to think deeply and to take an active role in uncovering new knowledge and understanding the world around us. By taking advantage of the transformative research experiences and faculty mentoring, the AU Scholar can build a distinctive record of achievement that will enhance their competitiveness for merit awards, professional and graduate schools, and jobs.

Exclusive features of the program:

- A seminar course taught by outstanding faculty who will challenge the boundaries of your intellect. The seminar also fulfills a General Education requirement.
- An experiential lab where you will acquire skills and tools of research while exploring fundamental issues and emerging challenges in the field.
- Research courses that will have you work in interdisciplinary teams to engage in meaningful discovery in a collaborative environment.
- Selection of professional and research workshops that will give you the tools and skills to grow personally and professionally throughout the two years.
- Opportunity to compete in the Wicked Problem Challenge during your second year. Work with an interdisciplinary team of AU Scholars and a faculty mentor to explore solutions to the most pressing social, economic, political and environmental problems.
- A vibrant and stimulating living-learning community of high-achieving peers who share your motivation, aptitude and drive for a scholarly life.

Application process
The AU Scholars Program extends invitations to incoming freshmen who demonstrate a commitment to pursuing academic challenges, specifically, a demonstrated interest in research, participation in a culture of scholarly inquiry, and a drive for distinction. There is no application for this program.

For more information, please visit: AMERICAN.EDU/LEARNING-COMMUNITIES/AUSCHOLARS/
For questions, please email: AUSCHOLARS@AMERICAN.EDU

COMMUNITY-BASED RESEARCH SCHOLARS PROGRAM

The Community-Based Research Scholars (CBRS) program is a selective, two-year living-learning community that emphasizes responsible and meaningful service learning through community-based research opportunities. The CBRS program is an intensive, living-learning community for scholars who learn how to conduct research to inform community solutions for pressing social problems. CBR Scholars will have a network of students, faculty, and community partners to help identify avenues to effect social change. CBR Scholars will be trained in research methods, research ethics, and issues relevant to the participating nonprofit’s area of focus.

Exclusive features of the program:

- Live, learn and serve together, establishing a strong community during your first years at AU.
- Take a seminar and lab with passionate professors who connect course learning objectives with community needs.
- Participate in research methods courses, with projects designed in collaboration with a local nonprofit.
- Engage in ongoing personal and professional development designed to train you to be a change agent in your community.
- Develop and maintain ongoing community relationships through service and research-oriented projects.
- Receive faculty mentors, investing in students’ scholarly futures.

Application process
Currently, the CBRS Program extends invitations to incoming freshmen with demonstrated interest in community service, social justice, and research. There is no application for this program.

For more information, please visit: AMERICAN.EDU/LEARNING-COMMUNITIES/CBRS/
For questions, please email: CBRS@AMERICAN.EDU
AU ABROAD

With more than 135 offerings in 38 locations, from Kenya to Chile, across 6 continents, 70 percent of our students participate in one of our one- or two-semester, alternative spring break or language immersion programs before they graduate. Incoming first-year undergraduates also have the opportunity to study abroad prior to their AU academic career through a First-Year Seminar Abroad.

Where in the world will you go with AU? Here is just a sampling of AU Abroad's programs around the world:

MIDDLE EAST
Israel: Hebrew University of Jerusalem
Jordan: Intensive Arabic and Cultural Studies in Amman (CET)
United Arab Emirates: AU Sharjah

ASIA
China: Beijing Program
China: Chinese University of Hong Kong
India: Contemporary India Program - Pune (Alliance)
Japan: Waseda University
Korea: Yonsei University
Taiwan: National Chengchi University

CENTRAL/SOUTH AMERICA
Argentina: Universidad Católica
Brazil: Pontificia Universidade Católica de Rio de Janeiro
Chile: Santiago Program
Costa Rica: Universidad Nacional Autónoma (IFSA - Butler)
Uruguay: University of Montevideo

AFRICA
Kenya: Issues in Sustainable Development and Public Health
Kenya: Turkana Basin Field School
Morocco: AMIDEAST in Rabat and Regional Studies in French

OCEANIA
Australia: University of Queensland
Australia: University of New South Wales
New Zealand: Victoria University of Wellington

AU CAREER CENTER

Our Career Center is dedicated to assisting undergraduates, graduate students, and alumni develop educational and career goals, decision-making skills and job search strategies needed to achieve their academic and professional aspirations.

SEEK EXPERT ADVICE
90 percent of undergraduates complete at least one internship before graduating from AU.

CAPITALIZE ON INTERNSHIPS
There are more than 8,000 internships and jobs listed annually on AU CareerWeb.

FOLLOW YOUR PASSION
88 percent of employed 2016 AU graduates hold a job related to their degree.

CONNECT WITH EMPLOYERS
92 percent of recent AU grads were employed, enrolled in graduate school, or both, within six months of graduation.

COMPETE FOR NATIONAL SCHOLARSHIPS
The 2015-2016 academic school year marked an outstanding year for national scholarship success at AU.

- 11 Boren Scholarships and Fellowships
- 3 Fulbright Grants

auabroad.american.edu

auabroad.american.edu
American University offers a broad choice of majors and minors, as well as preprofessional advising programs. Students may double major or construct their own interdisciplinary major. AU’s flexibility also allows students to have a major in one AU school and a minor in another AU school or college. In addition, more than 40 majors offer the option of pursuing a combined 5-year bachelors/masters program.
