• Closing Comments and Adjourn
Ground Rules:

• Respect the Process
• Be Present and Engaged
• Follow the Facilitators’ Directions
• Allow Every Voice to be Heard
• Speak Courteously and Respectfully to Others
• Maintain Zero Tolerance for Any Comment (Verbal or Written) that is Meant to Attack or Intimidate Another Person, or is Obscene
Sound Wall Design

PROPOSED

- Acoustical Sound Barrier Wall
- Filming Tower
- Turf Replacement
- New Video Scoreboard
- Jacobs Recreational Complex
- Reeves Field and Greenberg Track
“...approximately 15 feet in height and approximately 360 feet in length for installation at or near the current fence line between Jacobs Field and 4710 Woodway Lane, N.W...” - Z.C. Order No. 20-31, Condition #19
“...approximately 15 feet in height and approximately 360 feet in length for installation at or near the current fence line between Jacobs Field and 4710 Woodway Lane, N.W...” - Z.C. Order No. 20-31, Condition #19

Note: Actual wall appearance may differ depending on final finish, color, and other pending material related decisions.
“...minimize damage to mature trees in the area of the future acoustical sound barrier wall through placement and design of the wall, and shall restore the landscaped buffer, to the extent feasible, after construction of the acoustical sound barrier wall....” - Z.C. Order No. 20-31, Condition #22
“...The wall must be designed and approved by acoustic engineers based upon scientific standards and modeling to reduce current sound levels...” - Z.C. Order No. 20-31, Condition #19
Data collected by AU consultants shared (Condition #19).

Sound wall design documents shared (Condition #19).

Modeling data supporting wall design shared (Condition #19).

System settings in place to reduce impact (Condition #24).

Speaker locations and positioning determined (Condition #24).

Monitor amplified noise from Jacobs Field (Condition #25).

Apply for further processing (Condition #20).

Perform post-completion testing of wall (Condition #23).
