Better workdays

by nature

Sweetgreen Outpost brings made-from-scratch meals to the office daily so you can eat well without sacrificing taste or convenience.

Here's how it works:

①	**Pick desktop or mobile**	Open the sweetgreen app or visit order.sweetgreen.com to select your Outpost location.
②	**Place your order**	Tap "order now" to customize your meal before the cut-off time (up to 24 hours in advance).
③	**Pickup + go**	Grab your greens from the drop-off area in your office—we'll send a notification when orders arrive.
