

Hello,

We are excited to announce that the Student Room Selection (RSRS) application is now available in the [AU Housing Portal](#). Below you will find key information about the process to select your home for next year and can always find full details on our [RSRS webpage](#). Please also review the email we sent on February 3.

What should I do now?

- After reviewing our webpage, you can head to the [AU Housing Portal](#) to **complete your application** by February 22 at 5 p.m. Simply select *Academic Year Housing Application* at the top of the portal home screen.
- Once your application is complete you can **form a roommate group** (this step is optional) or search for potential roommates to connect with and discuss living together. You can form and change your roommate group up until you select your home between March 2-4.
- With these steps complete, there is nothing else for you to do besides **watch for emails** from us about the final step of the process. These messages will come in late February.
 - Oh wait, one more thing, you should also view our new [virtual tours](#) and [residence hall pages](#) to learn more about your options during selection!

What else makes finding my home exciting this year?

In addition to the many reasons students opt to live on each year, we're excited to share the following community options available to students this year:

- All returning students will also have the option to share interest in our **Black Affinity Housing** community through the housing application. You can learn more through our "What is affinity housing?" FAQ on the [room selection webpage](#).
- To welcome rising sophomores to campus, AU has been working hard to offer you a variety of new **Sophomore Year Living-Learning Communities (LLC)**. Some of these new LLCs are extensions of first-year LLCs and others are brand new communities for you to consider! All of these communities will be housed in [McDowell Hall](#) and rising sophomores will see these options on the housing application. You can also [learn more here](#).
