Accommodated Testing Instructions Overview

− If a student sends you a Faculty Notification Letter that includes accommodated testing, you need to fill out the Accommodated Testing Instructions Form. To access this form, click on “Accommodated Testing Instructions Form” at the top of the screen.

− This form can be completed at the beginning of the semester. If you teach multiple sections of the same course, you may copy instructions using the copy form button.

− If you wish to change these instructions throughout the semester, you may use the modify feature.

− You will now submit one form per class, rather than one per student. Even if you have multiple students in the same class requesting accommodations, you only need to complete this form once.

− These instructions are important for our office so we can ensure your students receive the correct exam instructions and only have access to preapproved materials. They are also important so we can reach out to you by your preferred method of communication if we have any questions/concerns.

  a. If there are tests that aren’t yet scheduled, you may come back to this page when you have more information.
  
  b. Approval Method: This section is important because it lets our staff know if you approve of certain requests based on the day and time. If you do not approve of your exam being taken on a different day, or at a different time than when it is scheduled to be taken in class, you can use this opportunity to let us know that.
  
  c. Standard Length of Exam: This is the length of time students have in class to take the exam.
If the test instructions and/or materials are different for a specific exam than the general course instructions, you may update that information in the Exam Date Instructions section. If your instructions and materials are the same as indicated on the general Accommodated Testing Instruction Form, skip this section.

Next, you can upload the file of the exam as a PDF or Word Document onto the portal right here. Please note ASAC will not accept emailed or hand delivered exam materials to streamline our test administration processes.
You can also use the “Upcoming Exams” section to view:
