

ENTERING REFLECTIONS ON ASSESSMENT

Once all your assessment results are entered, please complete the report by writing a sentence or few into the Annual Update, giving us any information you think we should know about the assessment process, either successes (For example, improvements in faculty participation or the addition of a new method) or challenges (perhaps difficulty in getting samples of student work.) Anything you'd like us to know.

1. Click on the menu (green with white lines, upper left) and go to annual update.

2. Open/edit the information already in this template by clicking on the three dots to the right. Answer the question “overall program reflections on assessment activities this year.”

3. Save your changes and – you're set!
