Student Comments

What did you find MOST helpful about Instructor's teaching approach and course content?

Comments
I think they explained the class's concepts and ideas quite clearly. I also think that they were very engaging in classes.
I found the open dialogue format of class to be really helpful in bringing concepts out into class. Professor always made sure to connect a student's idea to a larger theme or concept and managed to organize this very well.
I felt that how they did late assignments was really incentivizing to turn in the work even if I could not get it in on time and it was incentivizing to do the work well.
They were very knowledgeable and a clear communicator of class expectations and information.
They were very approachable and I felt that they presented the course materials in an engaging and interesting way.
Very interested in content and engaging with students. Their knowledge and interest on the subject made it much more interesting to learn.
Feedback, class discussions, and office hours were very helpful.
It was a discussion based class so it was easy to get clarification on any lingering questions or feedback
They are very invested and interested by what they teach and it shows during class. They genuinely enjoy class every day and it means they are always prepared to talk to students outside of class and prepared for class itself..
I really enjoyed their lectures/facilitated discussions on the readings in class, they seemed passionate about teaching the material
Professor was always receptive to student analysis and response to provided literature. As an inexperienced student myself within this section, this was a very welcoming exchange to be having, especially in such an intimidating topic.
The guiding questions going into readings were the most helpful
The use of essays as assessments worked well.
Incredibly nice and respectful of students. Gave students the opportunity to talk about readings with guided questions making it easy to understand the overall course material.
I found the style of note taking in class to be really helpful along with their essay edits. I felt that I was constantly able to adapt.
