AP Course Equivalencies at AU

*DISCLAIMERS

- This document's list was transcribed from AU's Transfer Articulation Database on 4/30/2026
- Equivalencies and associated details are subject to change at any time
- Refer to AU's Transfer Articulation Database as the source of truth for all transfer equivalencies

**SUBJECT-LEVEL / ELECTIVE CREDIT

- Course codes with a subject designation that end in -#XX (e.g. LIT-1XX or ARTS-2XX), fulfill subject-level elective credit, meaning that while there is not an exact AU course equivalent in that subject, it's acknowledged to fulfill general credit for the respective subject/level
- Course codes with an elective designation that end in -#XX (e.g. ELEC-1XX) fulfill general elective credit, meaning that while there is not an exact AU course equivalent, it's acknowledged to fulfill general elective credit
- Subject-level credit and general elective credit can count towards the 120 credits needed to graduate, if applied to the student's record

***THE "TRAILING X"

- Course codes with one "trailing x" (e.g. STAT-202X) will transfer into AU and fulfill that specific AU course, but cannot be used to fulfill AU Core requirements
 - For example, STAT-202X equals AU's Basic Statistics (STAT-202), but does not fulfill AU's Quantitative Literacy I requirement
