

Alexandra Weinroth recently graduated from the WeLead training program with the class of 2019. She currently works on the House Budget Committee. She said "I recently got a call asking me to manage the campaigns of two women running for local office in my hometown. Thanks to my recent participation in WeLead, I had the confidence, training, and support network to say 'yes!' I flipped through my session notes and got to work building a fundraising plan, crafting a messaging, organizing a strong team, and setting short and long-term campaign goals. Thanks WeLead, for arming me with the tools and knowledge to help narrow the gender gap in political leadership."
